PROJECTS

AN IMPLEMENTATION OF SOLAR PV ARRAY BASED MULTIFUNCTIONAL EV CHARGER USING FUZZY LOGIC CONTROLLER.

In this project, an implementation of Solar Photo Voltaic array powered grid connected residential electric vehicle charger is presented, which caters the need of an EV, Household loads and the grid. The charger is enabled to operate autonomously using a PV array for providing an uninterruptible charging and power to household loads.

VINTAGE CAREER (JOB PORTAL).

I played a key role in the development of a vintage career website, where I leveraged my skills in web development to create an engaging and userfriendly platform. This project allowed me to showcase my proficiency in [Java, Angular, Springboot, Mysql] and contribute to the seamless connection of job seekers with unique opportunities in the vintage industry. The experience enhanced my ability to work in collaborative environments, meet project deadlines, and deliver high-quality results in web development.
